Key Points

- Context
 - Evaluation system
 - Timetable
- “The making of ...”
 - Actors
 - Supporting Evidence

FP7 Evaluation System Basics

- Multi-layer system of thematic evaluations at programme level, studies to analyse general issues and overarching evaluations at FP level
- Evaluations to be carried out by the services responsible for an activity as part of the management responsibilities
- FP7 Evaluation system spelled out in detail in the FP7 Decision and the FP7 Impact Assessment
- Open architecture to take up input from stakeholders

FP7 Evaluation System Roadmap

2008/2009	Ex-Post Evaluation FP6
2009	FP7 Progress Report
2010	Interim Evaluation of FP7
2011/2012	Ex-ante Impact Assessment FP8
2015	Ex-post Evaluation FP7

FP7 Evaluation System Roadmap in context

2008/2009	Ex-Post Evaluation FP6
2009	FP7 Progress Report Financial Perspectives
2010	Interim Evaluation of FP7 Mid-Term Review Development of FP8
2011/2012	Ex-ante Impact Assessment FP8 Adoption of FP8
2015	Ex-post Evaluation FP7

FP7 Evaluation System

FP7 Interim Evaluation 2010

- Independent evaluation through external experts
- Based on broad evidence base
- Building on the ex-post evaluation of FP6
- Perspective on possible mid-term review of FP7 and on future design of FP8

FP7 Evaluation System Progress Report 2009

- First factual analysis of FP7 implementation
- Commission communication, accompanied by a Staff Working Paper
- Focus on
 - Simplification
 - New Instruments (JTIs, 169, ...)
- To be expected in May 2009

FP7 Evaluation System Monitoring System

- Move from “ad hoc” campaigns using external experts (FP6) towards a systematic internal monitoring (FP7)
- Annual analysis based on a core set of indicators
- Information source for future FP7 evaluations
- Flexible system to develop as FP7 will become more “mature” (outputs)
- First FP7 Monitoring Report just released
